ENDORSEMENTS OF SHALOM-SCCRR HUMANITARIAN-PEACE-DEVELOPMENT WORK

Fergal Keane, BBC African Editor, writing recently about Shalom in the **Irish Independent** said: *“Kenya needs them in its slums and beleaguered western villages,... what they do here matters to all of Africa...”*

International Development Consultant, Mr. Mike Williams, reviewing Shalom-SCCRR’s methodology and organizational strategy stated:

“Shalom’s contextually driven, rigorous but adaptable and forward-looking methodology represents a model approach towards peace-building in highly complex situations, such as those that pertain in Northern Kenya. The approach, with its emphasis on community leadership, stakeholder participation, high technical competency, logic models, results frameworks, stories of change and advocacy linkages also reflects current best practice within both the Peacebuilding and development sectors.”

UN Recommendation:

“Shalom Center for Conflict Resolution and Reconciliation is well known to the United Nations Information Center (UNIC). The Shalom Center for Conflict Resolution and Reconciliation works to end the cycle of violence in the tribal lands of Eastern Africa ... We therefore, have no hesitation in recommending them for the United Nations Department of Public Information (UNDPI) accreditation, with the confidence that they will be a great asset and add value to the United Nations work.”

IGAD’s endorsement of Shalom-SCCRR’s to the UN, 2018

“Shalom distinguishes itself by its unique way of working, incorporating theory through research and practice through training on skills in conflict resolution and transformation. The organisation has a growing reputation for its peace-building work, professionalism, high research ability, and conflict sensitivity. Its well-structured training modules on analytical skills and knowledge of peace-building is a major contributor to our work.... Shalom is unquestionably an exceptional organisation to partner with. Shalom's experience in the region suggests that the UN and it would greatly benefit from this association.”
